• Backup your GTA V Exe-file and copy the contents of the folder to your GTA V folder. • There are 2 download links with some screenshots for each one. • I took some pictures of my GTA 5 pc so you guys could see it easier. • I hope you like the project. Q: How to convert nvarchar to datetime I have a field called EndDate which is nvarchar(19), and contains a date value like so: 20120507 How can I convert this to datetime? A: Assuming the source is select '20120507' enddate To get the datetime type try select cast('20120507' as datetime) enddate Or select cast('20120507' as date) enddate Edit Converting the string to date works in SQL Server and Oracle. However, for different database types, there are different methods to achieve the same result. select to\_date('20120507','yyyymmdd') enddate select to\_char(to\_date('20120507','yyyymmdd')) enddate SQL Server: select convert(date, '20120507') select convert(nvarchar(20), '20120507', 101) SQL Server 2012: select cast('20120507' as datetime) select cast('20120507' as date) /\* \* Copyright (C) 2017-2019 Dremio Corporation \* \* Licensed under the Apache License, Version 2.0 (the "License"); \* you may not use this file except in compliance with the License. \* You may obtain a copy of the License at \* \* Unless required by applicable law or agreed to in writing, software \* distributed under the License is distributed on an "AS IS" BASIS, \* WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. \* See the License for the specific language governing permissions and \* limitations under the License. \*/ import 82157476af
